

AWARD WINNER 2024

## Aaron Ardiri

### CEO of the Year (IoT Solution) – Stockholm 2024

Aaron Ardiri, the CEO and co-founder of RIoT Secure, brings nearly three decades of experience in embedded systems, software development, and cybersecurity. A visionary leader with a profound passion for technology, Aaron has made significant contributions to the field, notably in optimizing solutions for resource-constrained environments. His expertise spans across various industries, including gaming and mobile applications, where he has been recognized globally for his innovative work. At RIoT Secure, Aaron leads the development of groundbreaking security solutions, including a patented communication protocol and a unique hardware sandbox model, setting new standards in IoT security.
